

**NATIONAL GRANGE**  
Annual Session of the National Grange, of Patrons of Industry at Manchester, New Hampshire, Legislative Policies—Years Record.

There is no organization in this country, political or otherwise, that is of more vital interest to the farmer of the country than is the National Grange, Patrons of Industry, and one is justified in going still further in the statement and saying that there is no industry of more vital importance to the whole body politic than agriculture. The above statements considered, it would seem to follow that the action taken and the policies announced by the National Grange at its 47th annual convention in New Hampshire is of real interest to all and the utterances from the platform of that convention should be carefully considered. Oliver Wilson of Ohio is the National Master and presided at the sessions of this meeting. One of the principal speakers was Congressman Raymond B. Stevens whose words are worth considering carefully; he said in part: "The farmer today is just one thing; it needs to be made more profitable for the farmer. It is at a great disadvantage in the business world because it is being carried on in the same way that was generations ago—without combination or consolidation. Farming is a business affected more by combination than any other industry. Today the farmer is not only a laborer, but he is compelled to buy his supplies from industries that have consolidated and control the market. The price of fertilizers will increase just in proportion to the farmers ability to buy. In selling you are caught in exactly the same trap—the corporations that control the market." Mr. Stevens announced himself as favoring the Sherman Anti-Trust law so that it should not be applicable to co-operation of farmers in selling or purchasing supplies. National Master Wilson's annual address was a masterful message and covered many subjects and many conditions; perhaps the most important part of this address was that which announced the legislative policies of the National Grange. These policies, as stated by Mr. Wilson, are: Federal aid for road improvements; conservation of our national resources; a just and equitable system of financial co-operation; effective regulation and control of railroad and express companies; a rational and fair system of agricultural credit; international peace.

The national secretary's report showed 411 granges organized during the year ending September 30th, 1913, and 20 granges re-organized during the same period. Secretary David F. Houston, of the U. S. Department of Agriculture, in his address before the body, said that rural conditions in this country present not a class problem but a national problem, affecting city and rural populations alike. Mr. Houston called attention to the fact that less than 12 per cent of our land is yielding maximum returns and also pointed out that we have a population of less than ninety-five millions living on three millions of square miles and that out of approximately 965 million acres of arable land, only about 400 million acres are included in farms and improved; that we have practically ceased to be a food producing nation so far as food products are concerned, fast becoming dependent upon foreign nations for the necessities of life, and that the suffering the penalty of fostering industrial centers and letting agriculture take care of itself. He recommended the discontinuance of present social distribution and outlined the program of the Department of Agriculture to meet and supply the needs of the agricultural interests of the nation.

Guardianship of Clarmond E. I. Deck, final account confirmed and guardian discharged.  
Guardianship of Oral Josephine Vaiter et al, 1st and final account confirmed.  
Estate of Austin K. Ford, 1st bar.

that account confirmed.  
Estate of John J. Miller, 1st and final account confirmed and administrator discharged.  
Guardianship of Edward Mosher, resignation of F. A. Seely, guardian filed and accepted. Said Edward Mosher was adopted by Fred A. and Elizabeth Seely and name changed to Edward E. Seely.  
Will of John A. Hoffman, application for probate filed. Hearing set for Nov. 25th at 1 p. m.  
Stella M. Allison committed to Toledo State Hospital.  
Will of Louisa Seiffert, filed for probate and record. Hearing set for Dec. 18th at 1 p. m. Notice to next of kin issued.  
Will of Josephine Wertenburg filed for probate and record. Hearing set for Dec. 18th at 1 p. m. Notice to next of kin ordered made by publication.  
Will of Della Rosebrook, filed for probate and record, hearing set for Dec. 22nd at 1 p. m. Notice to next of kin issued.  
Estate of Jackson Jennings, hearing on final account set for Dec. 22nd at 1 p. m. made by publication. Administration with will annexed, issued to Katie Wicks. A. L. Smith, Chas. Jacquet and Lawrence Hastings were appointed as appraisers by the Court.  
Application made to probate will of Josiah Stair. Notice to next of kin ordered made by publication. Hearing set for Dec. 16th at 1 p. m.  
Estate of Joseph Valt. inventory and appraisal filed.  
Proofs of publication and notice of appointments were filed in the following estates: Mary Pritchard, Clara Clifton, Hiram B. Smith, Geo. W. Lindersmith, Cassie L. Crawford, Sarah Farst, Frederick P. Barbier, and also in the assignment case of George D. Brown.

**RESTATEMENT**

**Congregationalists Restate Their Faith and Policy**—Ernest Bourner Allen of Toledo Reports Action of National Council of the Churches at Kansas City.  
Crowded out for lack of space last week was the report of Rev. Ernest Bourner Allen's presentation of the action taken by the National Council of the Churches in their Triennial meeting at Kansas City last month. Doctor Allen, who was a member of the Council, presented the action taken by this body at the meeting of the Toledo Association held with the Wauseon Congregational church November 15th.

The action taken by this body in restating its faith and general principles of policy is of more than ordinary interest because of the fact that this restatement embodies the advanced thought of the churches of this order during the past twenty-five years and in condensed form states the belief of these churches at the present time. The following is the action taken by the National Council and presented by Doctor Allen:

**Faith**  
We believe in God the Father, infinite in wisdom, goodness, and love, and in Jesus Christ, His Son, our Lord and Savior, who for us and our salvation lived and died and rose again for our redemption. We believe in the Holy Spirit, who taketh of the things of Christ and revealeth them to us, renewing and comforting and inspiring us. We are united in striving to know the will of God as taught in the Holy Scriptures and in our prayers to the Father, in the name of the Lord, made known or to be made known to us. We hold it to be the mission of the Church of Christ to proclaim the Gospel to all mankind, exalting the worship of the one true God, and laboring for the progress of knowledge, the promotion of justice, the reign of peace, and the realization of human brotherhood. Depending, as did our fathers, upon the continued guidance of the Holy Spirit to lead us into all truth, we work and pray for the transformation of the world into the kingdom of God; and we look with faith for the triumph of righteousness and the life everlasting.

**Policy**  
We believe in the freedom and responsibility of the individual and in the right of private judgment. We hold to the autonomy of the local church and its independence of all ecclesiastical control. We cherish the fellowship of the churches, united in district, state, and national bodies, for counsel and co-operation in matters of common concern.

**The Wider Fellowship**  
While affirming the liberty of our churches, and the validity of our ministry, we hold to the unity and catholicity of the Church of Christ, and will unite with all its branches in hearty co-operation; and will earnestly seek, so far as in us lies, that the prayer of our Lord for his disciples may be answered, that they all may be one.  
The National Council action, represents the general sentiment of the churches that are represented by the delegates who constitute its membership and is advisory in its application to the churches, each church determines its own articles of Faith and government. Furthermore the present statement is by no means final, there will be statements in the future that will express any change in point of view or belief entertained by the churches of this order; as indicative of the attitude of Congregationalists in this direction.

**OFFICIAL REPORT**

**Agricultural Commission of Ohio, on Condition of Crops November 1st, 1913. Average Price Comparisons With Last Year.**

The following report is computed from returns received from the official correspondents of the Department:  
**Wheat**—Area sown last fall returned by township assessors, 1,616,179 acres.  
**Wheat**—Sown this fall compared with last year, 101 per cent.  
**Wheat**—Estimated area needed for harvest of 1914, 1,655,185 acres.  
**Wheat**—Condition compared with average, 101 per cent.  
**Wheat**—Average date of seeding, September 23.  
**Alfalfa**—Area in 1912 returned by township assessors, 27,899 acres.  
**Alfalfa**—Area compared with last year, 104 per cent.  
**Alfalfa**—Estimated area in 1913, 28,777 acres.  
**Alfalfa**—Total tons produced per acre from all cuttings, 3 tons.  
**Alfalfa**—Total estimated product for 1913, 86,124 tons.  
**Alfalfa**—Number of cuttings this year, 3.  
**Rye**—Area sown last fall returned by township assessors, 185,473 acres.  
**Rye**—Sown this fall compared with last year, 86 per cent.  
**Rye**—Estimated area needed for the harvest of 1914, 158,713 acres.  
**Rye**—Condition compared with average, 99 per cent.  
**Sugar Beets**—Estimated area sown for 1912, as returned by township assessors, 23,826 acres.  
**Sugar Beets**—Estimated area for 1913, 22,024 acres.  
**Sugar Beets**—Total estimated production for 1913, 223,099 tons.  
**Sugar Beets**—Total yield as compared with 1912, 90 per cent.  
**Corn**—Prospect compared with average, 84 per cent.  
**Buckwheat**—Prospect compared with average, 80 per cent.  
**Clover**—Seed—Prospect compared with average, 95 per cent.  
**Potatoes**—Area planted returned by township assessors, 103,302 acres.  
**Potatoes**—Average production per acre, 69 bushels.  
**Potatoes**—Total estimated production for 1913, 7,157,011 bushels.  
**Potatoes**—Elected by rot, 2 per cent.  
**Hogs**—Condition compared with average, 93 per cent.  
**Hogs**—Number to be fattened compared with 1912, 86 per cent.  
**State Average Prices**

	Per Bushel
Wheat	89
Corn	88
Barley	62
Oats	41
Rye	91
Potatoes	91
	Per Ton
Hay	12.80
Alfalfa	14.65
Sugar Beets	5.16

The estimated acreage sown for the wheat harvest of 1914 is approximately 80,000 acres more than was harvested this year. Average date of sowing was a little earlier than last year, and favorable weather makes condition a little above the average.  
Alfalfa production shows average of 3 tons per acre, the same as last year, but an increase of about 2,000 acres over last year.  
The area sown to rye this fall is estimated at about 25,000 acres less than last year.  
The estimated acreage planted is 3,044,078 acres. From present prospects this will produce approximately 90,000,000 bushels against 127,700,000 bushels last year.  
The 1913 yield of sugar beets is estimated at 90 per cent as compared with last year due to dry weather during July and August. The acreage was also about 1,800 acres less.

Potato acreage was about the same as last year. The average estimated production per acre is about 50 bushels less than last year. The total estimated production for 1913 is 7,157,011 bushels as against 10,579,700 last year.  
The condition of hogs is about the same as last year. Number fattening for market is 86 per cent as compared with 1912.

**AGRICULTURAL**

**From News Letter of College of Agriculture—Demand Exceeds Supply—Ohio at Chicago Stock Show—Farmer Who Does Things Well.**

Owing to the fact that the demand for White Leghorn cockerels from the poultry department, Ohio State University, has far exceeded the supply, many of the requests already received and further requests will have to be turned down. Soon after the announcement went out through the extension department that pure bred cockerels could be secured from the University at a cost of 50 cents and express charges, hundreds of requests poured in from both country and city to distribute better blood among farmers' flocks, those sent out were delivered to the rural districts and every one is proud of the birds. The work of "tag day" will be carried on along the lines similar to the methods used in previous tag days, the boys visiting the homes of Wauseon in the morning of December 1st and the young ladies soliciting in the business sections. The tags will be white with the words "L. B. B. Tag Day" printed in blue. Every one will be solicited to purchase a tag. No special price will be placed upon them but not less than a nickel, it is hoped, will be proffered for one. Every mother, every father and friend of the boys are asked to boost for Wauseon boys tag day. Help the boys and thus make Wauseon a model town along these lines. The funds secured upon this day will be used under the direction of the Council of the Brotherhood in furthering the work of the movement. Get ready, wear a tag.

**TO THE PATRIOTIC PEOPLE OF FULTON COUNTY**

You are aware of the organization of the Fulton County Soldiers and Sailors Memorial and Monumental Association, the purpose of which is to erect on the court house grounds in said county a suitable monument or memorial to the soldiers and sailors of '61 to '65 from Fulton county. There are twelve vice presidents who were elected, one from each township, to solicit funds for the same. So far as we know but few have done anything. Wauseon has now raised some over one thousand dollars. Please organize your townships, by putting a good man in each school district to solicit funds so the work can be done as quickly as possible as there is only one other county in Ohio but what has a Soldiers Memorial and Fulton county should not be the last. If there are any vice presidents that cannot act, please send the name of some man or woman that will act and your resignation to our secretary, Miss Kathryn Weir, and they will be appointed. Respectfully,  
ALLEN SHADLE,  
President Board of Trustees.

**PARISIAN SAGE FOR THE HAIR**

If your hair is too dry—brittle—colorless—thin—stringy or falling out—use Parisian Sage—now—once. It stops itching scalp, cleanses the hair of dust and excessive oils, removes dandruff with one application, and gives the hair a soft and beautiful—soft—fluffy abundant. Try a 50c bottle today. It will not only save your hair but make it grow, but give it the beauty you desire. Fink & Haumesser.

Ten years ago Jacob W. Willet bought a 58-acre farm about one and a half miles from Hillsboro, O. Since that time he has paid for the farm, besides erecting a house and other necessary farm buildings. He has been able to do what he has largely because he has specialized on two crops, seed corn and alfalfa. At the present time he is producing seed corn of four different varieties, Johnson Corn White, Willet's Yellow Dent, Reed's Yellow Dent and Rotten Clange. He has one piece of alfalfa containing about two acres that has been cut three times in the last nine years. This piece has averaged a ton per cutting per acre. Valuing alfalfa hay at the low figure of \$15 per ton, this field has yielded a gross income of \$540 per acre in nine years. For a number of years Mr. Willet has been exhibiting corn and alfalfa at the Ohio Corn Improvement Association's annual show and the National Corn Show. He has 17 diplomas and one gold medal which he has received as prize. Among these is a first prize in a world's class for a sheaf of alfalfa won at the National Corn Show in 1911.

Birmingham, Ala., F. L. Willis, suffered greatly from asthma and bronchitis. He writes: "I got no relief until I took Foley's Honey and Tar Compound. It entirely removed those choking sensations, and never failed to produce an easy and comfortable condition on the throat and lungs." Fink & Haumesser.

**SERIOUS ACCIDENT**

Last Saturday afternoon Mrs. Ed Forest was the victim of a serious and painful accident which occurred at the Forest home, about half a mile north of Harrison's Crossing. Mr. Forest is down with a case of typhoid fever and during his illness his father, Mr. Joseph Forest, has been attending to the work about the place; on Saturday afternoon Mr. Forest, Sr., was oiling the gasoline engine used for pumping water and Ed, whose condition was much improved, asked his wife to step out and give his father some instruction in regard to oiling the engine; Mrs. Forest was in the act of combing her hair at the moment and without waiting to put it up she stepped out holding her hair aside from her face with one hand; she delivered Ed's message to his father, who looked away from her for an instant, when he turned to look at her again Mrs. Forest was lying on the ground unconscious with practically all of her hair gone from her head and her scalp badly torn. The screams of the twins who had been "helping" their grandpa attracted the attention of Ed who got out of his bed and came to the scene. The doctors Hartman Forest was lying on the ground unconscious with practically all of her hair gone from her head and her scalp badly torn.
